

Dermapen Treatment Post-Care Recommendations

During the skin healing process, minor itching, flaking or redness may appear. If symptoms persist for longer than 48 hours please call your Dermapen Practitioner. Do not pick, squeeze or agitate during the recovery period. Please avoid the following activities for up to 5 days following a Dermapen Clinical procedure:

- Direct Ultra Violet Light
- Intense Cardio, exercise or gym regimens
- Excessively hot saunas, showers or spas.
- Further Clinical Treatments (incl but not limited to): Microdermabrasion, laser IPL, chemical peels, muscle relaxant injections or dermal fillers) All should be avoided for 2 weeks.
- Spray tan or self-tanning
- Swimming in chlorinated pools or the ocean
- Tattooing (incl cosmetic Tattooing)

Please avoid the use of skin care products containing any of the following active resurfacing ingredients for up to 5 days following a Dermapen Clinical Procedure:

- AHA/ BHA (alpha hydroxy or beta hydroxy acid)
- Vitamin A-incl. tretinoin, retinol & retinaldehyde
- Any skin care NOT normally used day to day (steroid creams, pawpaw etc) are prohibited.
- Benzoyl peroxide
- Hydroquinone

Your home care regime may be altered by your practitioner according to your individual needs and skin conditions. If you are in doubt about a specific product to use on your skin do not hesitate to make contact.

DP Dermaceuticals Home Care Prescription

The evening of your procedure you are to apply and re apply these home care recommendations to help ease the redness, heat and tightness you are experiencing. These prescription products are created with dermal needling in mind, so are the only safe product to use for 12 hours following your procedure. They are most beneficial to your skins recovery as they deliver nourishing elements deep into the skins layers. Most skins require Rich Repair, however specific skin conditions require Hyla Active Serum. Bianca will advise you on which is best for your skin.

Vitamin Rich Repair Cream- A replenishing solution that promotes intensive repair and structure. It visibly strengthens vulnerable complexions specifically formulated to boost Dermapen Treatment Results. Apply every few hours following your procedure. In your daily routine apply in the evening as a night moisturiser. RRP \$130

Hyla Active Serum - Hyaluronic Acid is naturally present in the skin and is the molecular building block of connective tissue. As you age your bodys natural supply of Hyaluronic Acid begins to deteriorate leading to skin condtions and concerns. Apply every few hours for the day/evening of your procedure. In your daily routine apply morning and night to a clean dry skin, follow with moiutruiser and day SPF30+. RRP \$120-
