### What do the experts say about your Massage Mitt?

"I have been recommending this product for years and find there is no comparison to it- exfoliation gloves, a body brush with a wooden stick or body loofah, they do not even come close to this device! My best tip is to start by using it in the shower with body wash as this saves time. Upon your first few uses you will feel that the mitt is "too abrasive" yet I guarantee you that if you persevere you will come to LOVE its amazing feeling. After a few days of NOT using your Mitt you will be in the shower, and notice you are scratching your legs, thighs etc. This is your body yelling "hey, you know your Milano mitt? Use it!". The skin on your body requires daily exfoliation and stimulation to maintain a healthy glow and the Milano Mitt is the BEST exfoliation product on the market. Don't believe me, try it for yourself."
